			1		Individual Deliverables RED-CO	MPLETE		I
ay Date	Recurring Tasks	Team Goals	Ben	Victor	Nick	Jacob	Dylan	Zeming
3/28/2			Duit	Victor	Non	bucob	Sylan	Lenning
	1000 Team Meeting							
	1000 ream weeding							
3/30/2								
3/31/21								
4/1/21	1000 Sponser Meeting							
4/2/21	Progress Report							
4/3/2								
4/4/21								
4/5/21	1000 Team Meeting							
4/6/21	1000 reall wiceung							
4/7/21		Finish Blimp Design Document and send to sponsor	Assist with writting Metrics	Write Software chapter introduction, Review Design Sp				Select some of the originals you need in your d
4/8/21		Discuss Blimp Design document with Sponsor		on Write Software chapter introduction, Review Design Sp		Write Chapter 3: Metrics	Finish comments for Dr.Faust	
4/9/21	Progress Report	Revise Blimp Design Document, Review Metrics section from previous doc, Begin Proje		Decide Best Software	Decide Best Software	Decide Best Software	Review the Design Space section of the doc	Review the Design Space section of the docum
			Read AA 449 Final Milestone Report					
4/10/2		Revise Blimp Design Document	Blimp Project				Edit the Introduction section and continue to	Write Blimp Performance Characteristics
4/11/2			Read AA 449 Final Milestone Report					
		Revise Blimp Design Document	Blimp Project	Design and update project wiki			Design a dynamic equations model docume	
4/12/21	0900 Team Meeting	Revise Blimp Design Document to final draft and send to sponsor	Impliment suggestions/corrections from Mark	Design and update project wiki		update capstone plan	Finish a dynamic equation documentation for	
4/13/21			Impliment suggestions/corrections from Mark	Design and update project wiki			Refine the Introduction section and start to in	Learn mathematics about airship design
4/14/2			Research methods of testing blimp for Ch 3	Design and update project wiki	achieve stationary blimp simulation	Write explanations for metrics	Assist in the writing in metrics, performance,	Read different reports to check for required orig
4/15/21	1000 Team Meeting		Create a rough test for simulation for Ch 3	Design and update project wiki	Add control surfaces	Write explanations for metrics	Start to create a journal presentation to pres	Perfect the information that needs to be perfect
4/16/2	Progress Report		Review Ch 4 metrics table with Team	Design and undate project wiki	control propellers with exteral code	Write explanations for metrics	Finish +65 paper from Dr. Per.	Read the completed report
4/17/2	group report		Read into simulation/ get a debrief from the simulation t	par		THE STANDARD OF THE STANDARD O	To proposition to a co.	sampleted report
4/17/2			read into sentilations get a debilet from the simulation t					
4/18/2		l					Create comprehensive dynamic modeling ed	
4/19/21	0900 Team Meeting	Achieve basic blimp simulation	Finalize testing	Begin stationary blimp using webots	Achieve Controled flight with code	Write detailed summary of chosen software and s		
4/20/21			Assist with prototype gondola design	add control surfaces	Refine Controled flight	Write detailed summary of chosen software and s	Start Prototype design (Gondola)	Assist Prototype Design: Thrusters(The drive n
4/21/21			Assist Prototype Design: Thrusters	prepare simulation for sponsor presentation	prepare simulation for sponsor presentation	Write detailed summary of chosen software and s	Prototype Design: Thrusters	Assist Prototype Design: Thrusters(The drive n
4/22/2	1000 Sponser Meetina	Present basic blimp simulation to sponsor	Assist Prototype Design: Thrusters	Present basic simulation to sponsor	Present basic simulation to sponsor	Present basic simulation to sponsor	Prototype Design: Thrusters	Prototype Design: Thrusters
4/23/2	Progress Report		Assist Prototype Design: Cage	Review tessons from simulation creation and enough i	Review lessons from simulation creation and spon	Paview lessons from simulation creation and sno	Prototyne Design: Cane	Prototype Design: Cage
	r rogress respon		rosist i fototype besign. ouge	Tever resours non-simulation ereator and sponsor i	review leaders from simulation decision and spon	The view responsition simulation decision and spo	Finish second +80 Paper from Dr. P	1 tototype besign, eage
4/24/2			2 2					
4/25/2			Prototype Design: Cage				Prototype Design: Cage	
4/26/21	0900 Team Meeting		Prototype Design: Cage door	integrate metrics measurement	integrate metrics measurement	Begin chapter on Blimp components	Prototype Design: Cage door	Prototype Design: Cage door
4/27/21			Prototype Design: Cage door	integrate metrics measurement	integrate metrics measurement	Begin chapter on Blimp components	Prototype Design: Cage door	Prototype Design: Cage door
4/28/21			Prototype Design: Envelope Attachment	integrate metrics measurement	integrate metrics measurement	envelope	Prototype Design: Envelope Attachment	Prototype Design: Envelope Attachment
4/29/21	1000 Sponser Meeting	Refine blimp simulation, add movement and plan for sponsor to add autonomy	Prototype Design: Envelope Attachment	Communicate metrics measurement with sponsor and		envelope	Prototype Design: Envelope Attachment	Prototype Design: Envelope Attachment
4/30/2	Progress Report		Design iteration: With Dylan	integrate metrics measurement	integrate metrics measurement	sensors	Design iteration: With Ben	
5/1/21				mograte medica medaulement	megrate metro measurement		Design iteration: With Ben	
	-		Design iteration: With Dylan		-			
5/2/21	I	-	Design iteration: With Dylan				Design iteration: With Ben	
	0900 Team Meeting		Design Choice (Grams per design calculation)	set up flight path simulation demonstration	set up flight path simulation demonstration			Design Choice (Grams per design calculation)
5/4/21			Design Choise (Best component ranking)	set up flight path simulation demonstration	set up flight path simulation demonstration	batterys		Design Choise (Best component ranking)
5/5/21		Begin working on Capstone presentation	Prepare for Presentation	polish final blimp simulation for sponsor	polish final blimp simulation for sponsor	motors	Prepare for Presentation	Prepare for Presentation
5/6/21	1000 Sponser Meeting	Present final simulation to sponsor (sponsor handoff?)	Present Physical Blimp Airframe Design	Present Blimp Simulation	Present Blimp Simulation	edit	Present Physical Blimp Airframe Design	Present Physical Blimp Airframe Design
5/7/21		i :: :	Send Jacob Prototype for 3D printing	Reflect on Project Deliverables in silence	Reflect on Project Deliverables in silence	edit	Reflect on Project Deliverables in silence	Reflect on Project Deliverables in silence
5/8/2			The state of the s					
5/9/21	1							
			t					
	0900 Team Meeting		Jacob responce/ critique on final prototype	fix/integrate features to blimp after sponsor feedabck		work with dylan and ben to make gondola printab		Build a simulation model of an airship
5/11/21			Corrections on prototype design	fix/integrate features to blimp after sponsor feedabck		work with dylan and ben to make gondola printab	le	Build a simulation model of an airship
5/12/21			Corrections on prototype design	fix/integrate features to blimp after sponsor feedabck		fabricate gondola with ben and dylan		Modify the data for the physical model
5/13/2	1000 Sponser Meeting		Send Jacob Prototype for 3D printing	present to Sponsor		fabricate gondola with ben and dylan		Modify the data for the physical model
	Progress Report			Reflect on Project Deliverables in silence		fabricate gondola with ben and dylan		Test the feasibility of the data
5/15/21		fill up to here please				and the second s		
5/16/21		iiii up to here piease
